DETAILED ACTION

Claim Objections

1. Claims 4-15 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Lowell, Jr. et al. (US 5,120,505).

Regarding Claims 1-3, Lowell Jr. discloses a polymeric film comprising:

Art Unit: 4153

- at least one effector (e.g. polyamine, Claim 14) and at least one receptor modified elastomer (e.g. carboxylate, amide, ester, sulfone, Claim 6), characterized in that a change in volume is effected (e.g. expansion or contraction, Abstract & C2/L42-44) upon bringing into contact (e.g. chemical environment, Abstract) the at least one effector with the at least one receptor modified elastomer by means of forming a selective, covalent bond (Claim 8) between the receptors and the at least one effector of the receptor-modified elastomer;
- characterized in that the change in volume is reversible or non-reversible; and
- characterized in that the receptors of the at least one receptor-modified elastomer and the at least one effector are complementary (C4/L62) with respect to each other.
